#### Florida Patient's Bill of Rights Acknowledgement

As a new patient at our health care facility, we would like to take this opportunity to advise you or your rights and responsibilities which requires that we adopt and make available to all patients, in writing, a statement of the rights and responsibilities of patients, including the following:

#### Summary of the Florida Patient's Bill of Rights and Responsibilities

Florida law requires that your health care provider or health care facility recognize your rights while you are receiving medical care and that you respect your health care provider's or health care facility's right to expect certain behavior on the part of patients. You may request a copy of the full text of this law from your health care provider or health care facility. A summary of your rights and responsibilities follows:

A patient has the right to be treated with courtesy and respect, with appreciation of this or her individual dignity, and with protection of his or her need for privacy.

- A patient has the right to a prompt and reasonable response to questions and requests.
- A patient has the right to know who is providing medical services and who is responsible for his or her care.
- A patient has the right to know what patient support services are available, including whether an Interpreter is available
  if he or she does not speak English.
- A patient has the right to know what rules and regulations apply to his or her conduct.
- A patient has the right to be given by the health care provider information concerning diagnosis, planned course of treatment, alternatives, risks, and prognosis.
- A patient has the right to refuse any treatment, except as otherwise provided by law.
- A patient has the right to be given upon request, full information and necessary counseling on the availability of known financial resources for his or her care.
- A patient who is eligible for Medicare has the right to know, upon request and in advance of treatment, whether the health care provider or health care facility accepts the Medicare assignment rate.
- A patient has the right to receive, upon request, prior to treatment, a reasonable estimate of charges for medical care.
- A patient has the right to receive a copy of a reasonably clear and understandable, itemized bill and, upon request, to have the charges explained.
- A patient has the right to impartial access to medical treatment or accommodations, regardless of race, national origin, religion, handicap, or source of payment.
- A patient has the right to treatment for any emergency medical condition that will deteriorate from failure to provide treatment.
- A patient has the right to know if medical treatment is for purposes of experimental research and to give his or her consent or refusal to participate in such experimental research.
- A patient has the right to express grievances regarding any violation of his or her rights, as stated in Florida law, through the grievance procedure of the health care provider or health care facility which served him or her and to the appropriate state licensing agency.
- A patient is responsible for providing to the health care provider, to the best of his or her knowledge, accurate
  information about present complaints, past illnesses, hospitalizations, medications, and other matters relating to his or
  her health care.
- A patient is responsible for reporting unexpected changes in his or her condition to the health care provider.
- A patient is responsible for reporting to the health care provider whether he or she comprehends a contemplated course of action and what is expected of him or her.
- A patient is responsible for keeping for keeping appointments and, when he or she is unable to do so for any reason, for notifying the health care provider or health care facility.
- A patient is responsible for his or her actions if he or she refuses treatment or does not follow the health care provider's instructions.
- A patient is responsible for assuring that the financial obligations of his or her health care are fulfilled as promptly as
  possible.
- A patient is responsible for following health care facility rules and regulations affecting patient care and conduct.
- \*By signing below, I acknowledge that I have received a Summary of the Florida Patient's Bill of Rights.

#### **Notice of Privacy Practices**

Our practice is committed to educating our patients about healthcare issues that affect them. As a result, we are providing you with general information about Privacy Rule, a federal regulation of the Health Insurance Portability and Accountability Act of 1996 (HIPPA) along with brief overview of our Notice of Privacy. Our practice is complying with HIPPA regulations.

#### What is HIPPA and how does the Privacy Rule affect you?

When the Health Insurance Portability and Accountability Act (HIPPA) was passed in August of 1996, this gave the federal government the ability to mandate how healthcare plans, providers, and clearinghouses store and send a patient's personal information as it relates to healthcare. The privacy Rule was created to protect your rights as a patient of our practice, and we are required by law to be compliant with this regulation. Under the Privacy Rule you are guaranteed access to your medical records, allowed control over how your protected health information is used and disclosed and allowed to take action if your privacy is compromised by following the practice's policy. Our practice is dedicated to maintaining the privacy of your personal information.

#### What is Individually Identifiable Health Information (IIHI)?

Any health information you provide our practice, including your mailing address. IIHI is any information that is created and retained by our practice or received by another healthcare provider that relates to treatment, payment and/or that identifies you as an individual.

#### What is the Notice of Privacy Practice?

Our practice has an official Notice of Privacy Practice posted in our waiting room informing our patients about their rights surrounding the protection of your IIHI and our obligations concerning the use and disclosure of your IIHI. This notice applies to all records created or retained by our practice. We can update our Notice of Privacy Practices at any time. It will be posted, and a copy is provided in our waiting room, and you can take a copy of the current notice at any time.

#### The following categories describe the different ways in which we may use and disclose your IIHI:

Treatment Appointment reminders Release of Information to Family/Friends

Payment Treatment Options Disclosure Required by Law

Health Care Operations Health-Release Benefits & Services

# The following categories describe unique situations in which we may use or disclose your Identifiable Health Information:

Public Health Risks Health Oversight Activities

Lawsuits and Similar Proceedings Law Enforcement Deceased Patients Organ and Tissue Donation

#### **Fee Transparency Attestation**

NeuRepair Brain and Spine Wellness Centers provides various services and consumable products. Services include professional fees such as office visits, procedures, surgery fees, and independent opinions. Consumable products include medications used for injections, braces or collars for neck and back fractures or for after surgery, and certain medications useful and pertinent to your clinical scenario. There are also fees for X-ray services, stem-cell injections, and other therapies which are employed where clinically appropriate in your treatment.

Fee schedules for some of the most common office visit types, therapies, medications, braces injections and surgeries are readily available to you. You also have a choice when it comes to Healthcare and are entitled to more than one opinion. You are also entitled to more than one quote for any proposed surgery, injection, or medication.
